

Leader: Casey

Content Creator: Irwin

Information Architect: Brian

Graphic Designer: Maureen

Interaction Designer: Ryan

Decision Making process:

Simple Majority - Team lead breaks ties

Team Name:

Schizoids

Meetings: Once weekly progress meetings with status updates over discord

Questions for the client:

What is the purpose of the site?

Who is the target audience? 140 students/123 students

How basic do we need to go?

What commands do you consider basic in the scope of creating a website?

What commands would you consider unnecessary?

What kind of thematic considerations should we take into consideration?

What kind of accessibility concerns should we take into account?

What does a weekly progress report look like?

What are some desirable elements?

Easy to navigate
assessment

What are some required elements that we should consider?

^^ got answered

Deliverable dates and timeline

Feb 9th:

- Ask questions and get more information
- Color scheme/thematic ideas
- Deciding on functionality
- Basic roots of content (mapping out what to research)

Feb 16th

- Wireframes
- Style guide
- Competitive Analysis - C
- Goals - C
- Personas
- Requirements - C
- Index in design doc
- Accessibility requirements

Feb 20

- Conclusion
- Introduction and title page

Feb 22

- Full content and organization

Feb 27

- Site map
- Appendix and any other custom graphics

March 1

- Design doc turned in
